Terms & Conditions

Refund & Cancellation Policy

Last Updated: June 17, 2026

This Refund & Cancellation Policy applies to payments, transaction requests, platform fees, service charges, and other amounts paid through the CharzPe app or related services.

1. General Policy

CharzPe facilitates peer-to-peer energy transactions that may involve buyers, sellers, DISCOMs, payment gateways, metering systems, and regulatory processes. Therefore, cancellation and refund eligibility depends on the stage of the transaction, payment status, energy scheduling status, metering status, DISCOM approval status, settlement status, and applicable marketplace rules.

2. Cancellation by User

A user may request cancellation of a transaction only before the transaction is confirmed, matched, scheduled, submitted for DISCOM approval, or processed for settlement.

Once a transaction has been confirmed, matched, scheduled, submitted for approval, adjusted, settled, or accounted for, cancellation may not be permitted.

3. Cancellation by CharzPe

CharzPe may cancel, reject, reverse, or hold a transaction if:

- Payment fails or is not received
- Duplicate payment or duplicate transaction is detected
- Required user information is incorrect, incomplete, or unverifiable
- Required DISCOM, regulatory, or metering approval is not available
- The buyer or seller is found to be ineligible
- The transaction violates applicable law, DISCOM rules, regulatory directions, or marketplace policies
- There is a technical error, pricing error, fraud risk, system failure, or operational issue
- The transaction cannot be scheduled, adjusted, accounted for, or settled

4. Refund Eligibility

Refunds may be considered in the following cases:

- Amount has been debited but the transaction was not created
- Duplicate payment has been received
- Payment was successful but the transaction was rejected by CharzPe before confirmation
- Payment was successful but the transaction could not be processed due to technical failure
- Payment was successful but the transaction could not proceed due to regulatory, DISCOM, or metering rejection before energy accounting or settlement
- Any other case where CharzPe determines that a refund is valid under applicable law or marketplace policy

5. Non-Refundable Cases

Refunds may not be provided in the following cases:

- Energy has already been consumed, injected, scheduled, adjusted, accounted for, or settled
- Transaction has been successfully completed
- User provided incorrect, incomplete, false, or misleading details
- User is found ineligible after submitting incorrect information
- Platform fees, payment gateway charges, taxes, or third-party charges are non-refundable
- Transaction failed due to user negligence, wrong account details, shared OTP, device compromise, or unauthorised access caused by user conduct
- Cancellation request is received after the permitted cancellation window

6. Refund Timeline

Approved refunds will be processed to the original payment method or any other permitted method within **7 to 15 working days**, subject to banking, payment gateway, and settlement timelines.

The actual credit of refund amount may depend on the user's bank, card issuer, payment gateway, or payment service provider.

7. How to Request a Refund

To request a refund, the user must contact CharzPe support with the following details:

- Registered mobile number
- Registered email ID
- Transaction ID

- Payment reference number
- Date and amount of transaction
- Reason for refund request
- Supporting documents or screenshots, if applicable

Refund requests must be sent to the contact details provided in the “Contact Us” section below.

Pricing Policy

Last Updated: June 17, 2026

This Pricing Policy explains how pricing, fees, charges, and payments may be displayed and applied on the CharzPe app.

1. Display of Pricing

Pricing will be displayed within the CharzPe app, website, transaction page, invoice, dashboard, or commercial agreement, as applicable.

All pricing will generally be displayed in Indian Rupees, unless specifically stated otherwise.

2. Energy Pricing

Energy prices on CharzPe may vary based on one or more of the following factors:

- Buyer category
- Seller category
- DISCOM area
- Location
- Time of transaction
- Time block or settlement period
- Type of energy source
- Demand and supply conditions
- Energy quantity
- Applicable DISCOM charges
- Wheeling, banking, open access, or settlement charges
- Regulatory charges, duties, taxes, or surcharges
- Marketplace rules and commercial arrangements

Energy prices displayed in the app may be indicative until the transaction is confirmed and finally settled.

3. Platform Fees and Service Charges

CharzPe may charge platform fees, convenience fees, transaction fees, subscription

fees, onboarding fees, service charges, technology fees, settlement fees, or other applicable charges.

Such fees may be charged to buyers, sellers, or both, depending on the transaction type, user category, commercial arrangement, and marketplace rules.

4. Taxes and Statutory Charges

All applicable taxes, duties, levies, cess, GST, electricity duty, TDS, or other statutory charges shall be payable by the user, as applicable.

The final invoice or settlement statement may include taxes, deductions, surcharges, regulatory charges, or other applicable amounts.

5. Third-Party Charges

Users may also be required to pay third-party charges, including but not limited to:

- Payment gateway charges
- Bank charges
- DISCOM charges
- Metering charges
- Open access charges
- Wheeling charges
- Banking charges
- Cross-subsidy surcharge
- Additional surcharge
- Regulatory or settlement charges
- Documentation, verification, or processing charges

CharzPe is not responsible for any charges imposed by third parties, DISCOMs, banks, payment gateways, or regulators.

6. Price Changes

CharzPe reserves the right to change, revise, update, or withdraw prices, platform fees, service charges, and commercial terms from time to time.

Any such changes will be displayed on the app, website, invoice, transaction page, or commercial agreement, as applicable.

7. Final Settlement

The final payable or receivable amount may differ from indicative pricing displayed in the app due to metering corrections, DISCOM settlement, regulatory charges, taxes, payment gateway charges, revised readings, transaction adjustments, or other operational factors.
